A N

ALMANACK

O F

Coelestiall Motions

For the Year of the Christian Æra,

1 6 7 0.

Being (in our Account) third after Leap-
year, and from the Creation

5 6 1 9.

The Vulgar Notes whereof are

Golden Number	18.	*Cycle of the Sun*	27.
Roman Indiction	08.	*Epact*	18.
Dominicall Letter	B.	*Numb. of Direct.*	13.

Calculated for the Longitude of 315 gr.
and 42 gr. 30 m. North Latitude.

By *J. R.* Gradus.

Invitilatavirg; tacito rem tempore cressit
Diffugiunt, nullog; sono convertitur annus. Juven.

Printed by [illegible] 1670.

1670.

THere will happen five Eclipſes of the two greater Luminaries this preſent Year: Three of the Sun, and two of the Moon.

The firſt is a partil Eclipſe of the Moon, upon the 26 day of *March*, part onely whereof will be viſible to us. The beginning of the Eclipſe will be 26 *day* 4 *ho:* 48 *min.* in the morning; ſo that if the Air be clear, the entrance of the Moon into the Earths ſhadow, may be viſible about 45 *min.* of time, in this Meridian. At the time of the Moons greateſt Obſcuration (which will be a good while after her ſetting) ſhe will be ſomewhat more then 9 *digits* eclipſed.

The ſecond is a very ſmall Eclipſe of the Sun, upon the 9 day of *April*. The viſible Conjunction will be about 2 *ho.* 52 *min.* in the afternoon, near one digit will be eclipſed. The ſmalneſs of this Eclipſe, will render it ſcarce diſcernable by the Eye (though the Air be ſerene) without the help of an Optick-glaſs.

The third is a partil Eclipſe of the Moon, upon the 18 day of *September*: The whole whereof (if the weather hinder not) will be viſible in our Horizon;

Thus Calculated	*Beginning*	8 *ho.*	40 *m.*	Night.
	Greateſt Obſcuration	10 *h.*	7 *m*	
	The End	11 *h.*	3 *m.*	
	Totall Duration	2 *h.*	53 *m.*	
	Digits Eclipſed	9 *dig.*	33 *m.*	

The fourth is of the Sun, upon the 3 day of *October*; which will be but a ſmall Eclipſe, and will be viſible onely in the remote Southern parts of the Earth, unknown to us.

The fifth and laſt is a very little Solar Eclipſe, upon the 28 day of *February*, to be ſeen onely within the Straights of *Magellanica*.

The Earths Ingreſs into the four Cardinal Points, according to the apparent Aſtronomical time.

Earth enters	♈ ♎ ♑	☉ in	♎ ♑ ♋	*March*	Day 09 *h.* 08 *m.* 25 *p.* midn.
				June	Day 12 *h.* 03 *m.* 12 *A.M.*
				September	Day 22 *h.* 06 *m.* 22 *P.M.*
			♑	*December*	Day 11 *h.* 06 *m.* 12 *A.M.*

Ex. Libris
Dec. 4, 1907
R.

MARCH hath 31 dayes.

Last quarter 4 *day* 27 *min.* past noon.
New Moon 11 *day* 43 *min.* past 4 morn.
Second quarter 18 *day* 28 *min.* past 2 morn.
Full moon 26 *day* 33 *min.* past 6 morn.

THE COUNTRY-MANS *Apocrypha.*

IF *Stars do Rule the World*, then never fancy
What's told from them is wrought by *Nigromancy*.
In'admiring *Rusticks* faith will shrink perhaps,
Hearing the Tidings of such After-claps.
Who marvels not? The Sun shall once *stand still*,
Whilst that the Earth shall round him *dance* his fill.
Signes in the Sky shall now be seen; for there,
A *fiery Dog* will *Chase* a *shittish Hare*;
Which *nimble Elf*, at last, do what he can,
Runs 'tween the *Legs* of a *fierce Armed Man*.
To Plough-men great *Eclipses* will be seen,
Whilst Heaven and them the *Earth* doth come between.
Some men in *Cancer*, some in *Taurus* seek;
Some will be *Retrograde*, some *Bulls* will speak.
Hunger will so prevail for many years,
Rather then famish, some will *Roast* their *Ears*,
And Eat; while some (no doubt) that very hour,
Their *Mothers Off-spring* gladly will devour.
The Rural men will many Sights espy;
Trees walking with their *Roots* towards the Sky:
And if (as wonted) Winters Air be clear,
Men not a few, with *Swines-heads* will appear;
And in their *Freeze Cloth Vests* will make a *Moan*,
Their Loins Circingled with the *Frigid Zone*.
The Moon is habitable, some averre;
And that some Creatures have their Dwelling there.
Judge what you please; but yet 'tis very true,
This year the Moon a *Pair of Horns* will shew.
There is a place, that surely will be found,
(Yet very farre from any *English* ground)
Where they that live (being nigh a *Little Bear*)
Will have but *Twenty dayes* in Twenty year.
Conjunctions lastly, all which you will finde,
Of *Male* and *Female Planets* (if you minde)
Do tell of some great Changes to be wrought,
Men to *four-footed Creatures* will be brought.

Vilia miretur Vulgus.

A *Perpetuall Calender*, fitted for the Meridian of *BABYLON*, where the *POPE* is Elevated *42 Degr.*

A CALENDER fitted for *Fourty two*,
Now publick; though kept secret long ago:
Which may to other *Altitudes* agree;
To last ('tis hop'd) to perpetuitie.

Roman Indition, *NEW-YEARS DAY* begins:
Thus *Two-fac'd JANUS* Cheats the world by Sins.
The *Golden Number* is *DA*; *Give me all*,
Or else I'le take it. Letter Dominicall,
Is *AH*. A Mourning Day for Proselytes,
Posting to Hell by their *Dark-Lanthorn Lights*.
Eclipses many, out of this *HORIZON*,
Will *Darken* all things in the *Romish Prison*.
The formidable *Dragons Head* and *Tail*,
If *Pope's* and *Jes-Vites* Influx can prevail.
Their *Holy-dayes* are *Purim-dayes* and *FIRE*;
Which (like not Man, nor great Jehovah's) Ire.
Their *Lent* begins with *Bacchanals* and *Feasting*,
And holds, as *Famine* of Gods Word is lasting.
The *Courts* are kept in { *Pilate's* / *Prelate's* } *Judgement-Hall*,
Where damned *Rites* devour Soul, Flesh and all.
Trigon Aspect speaks *Council Tridentine*;
Adorns the *BEAST* with *Triple-Crown*, so fine;
Wherewith he Rules in *Limbo*, *Heaven*, and *Hell*;
Dooms *Heretick* with *Candle*, *Book* and *Bell*.
Quadrate Aspect, *Foure Monarchies* distills,
With Quintessence whereof the *WHORE* it fills,
With *Idols*, *Witchcraft*, *Sodomy* and *Blood*;
And drowns the World with a *Catholick Flood*.
These so compliant to mans sinfull frame,
Will gain this Almanack a lasting Name.

Let *Fourty two* stand stedfast in the *WEST*,
Then *Fourty two* is *Babel'd* in the *EAST*.

Incerti Authoris.
